PLEASANT VIEW NURSERIES

W. GRANT SCHOENLY

Ornamental Trees, Shrubs, Plants, Fruits

MAIN STREET, DAYTON, N. J.

Best Hardy Garden Roses.

Anna de Diesbach. Clear, bright carmine pink, very large, full and finely shaped; fragrant and a free bloomer.

Baroness Rothschild. A superb Rose, of pale, satiny rose, very large.

Frau Karl Druschki. This is the ideal hardy white Rose, pure in color, perfect in form strong grower and remarkably free-flowering; superb in every way.

General Jacqueminot. Brilliant scarlet crimson; an old favorite and one of the best known Roses in cultivation; does well everywhere.

Captain Christy. Delicate, flesh tinted white; a large, full flower, very free flowering.

Clio. Flesh color, shaded in the centre with rosy-pink; large and of fine form.

Paul Neyron. Dark rose, of enormous size; perhaps the largest of all.

Ulrich Brunner. Bright cherry-red; flowers large and full; a good strong grower and always does well.

Louis Van Houtte. Vivid velvety crimson; large, full and of fine form; one of the best.

Magna Charta. Bright pink, suffused with carmine; a beautiful Rose, and a strong vigorous grower.

Margaret Dickson. White, pale flesh in centre, vigorous and absolutely hardy, good stiff stems.

Large, strong, two-year old plants, 50 cents each; \$5.00 per dozen;
\$35.00 per 100.

On all roses after regular planting season 10c. additional will be charged on pot grown roses—which can be safely planted during the whole year.

Hardy Everblooming Hybrid-Tea Roses.

Caroline Testout. One of the most popular and valuable bedding varieties, large, full, globular flowers of bright satiny-rose, with brighter centre; very free and fragrant.

Clothilde Soupert. The flowers are borne in sprays, very double and handsomely formed. The outer petals are pearly white, shaded to a rosy-pink in the centre. They vary sometimes on the same plant from a pure white to deep silvery rose. A very prolific bloomer.

Gruss An Teplitz. The color when first opening is a very dark rich crimson; as the flower opens it discloses bright scarlet, shading to velvety fiery red. The flowers on well grown and established plants are large and full, very showy and handsome. It is a prodigious bloomer, one of the freest known, remarkably healthy and vigorous, almost immune from all diseases.

Hermosa. Although one of the oldest Roses this splendid variety has points of excellence not surpassed by any other and equalled by few. The color is in itself a recommendation; a clear, fresh, bright pink. The flowers are fairly double, cupped petals and of medium size; they are borne in clusters and in lavish profusion. It is hardy in this climate with protection and is sweetly fragrant.

Kaiserin Augusta Victoria. This splendid Rose should be in every collection. In color it is a soft pearly-white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower, with bold, handsome foliage.

Killarney. Is perfectly hardy; in growth it is strong and robust, and as free flowering as any Rose we know. In color it is sparkling, brilliant pink; the blooms are large, the buds long and pointed, the petals very large and of great substance, and just as handsome in the full blown flower as in the bud form.

La France. An old favorite, and probably the most popular Rose the world over. A model garden Rose in every way; flowers clear satiny-pink; large, very full and of perfect form.

Pink Maman Cochet. The buds are a beautiful pink; the color is held in the open flower. The flower stems are long and buds and flowers are held erect, and it is delightfully fragrant. Conceded by all to be the ideal ever-blooming pink, hardy, garden Rose.

White Maman Cochet. This is the ideal, hardy, white, ever-blooming Rose. It is a white, sport from Maman Cochet inheriting all its fine qualities. The buds are long and pointed, opening gracefully, the expanded flowers are full and firm.

Souvenir du President Carnot. A Rose that pleases everybody; fine in form, of large size and delicate in color; a soft rose shading to white.

50 cents each; \$4.50 per dozen.

Rambler Roses.

All of the Rambler class are of strong, vigorous growth, making shoots 10 to 20 feet long in one season, and when in flower are a gorgeous sight.

Crimson Rambler. Too well known to require description. Everyone is familiar with its large clusters of crimson flowers.

Philadelphia Rambler. An improvement on the above; identical in all respects, but with deeper and more intense crimson flowers.

Dorothy Perkins. Soft shell pink, flowering profusely in large clusters; very fragrant and lasting; a grand Rose in every way.

Lady Gay. A most desirable variety of remarkable, vigorous growth, with flowers of a delicate cerise-pink, passing to soft-tinted white. The effect of a plant in full bloom with the combination of the soft white flowers, cherry-pink buds, and the deep green of the foliage is indeed charming.

EVERBLOOMING RAMBLERS.

Flower of Fairfield. A counterpart of Crimson Rambler in every respect, except that it shows everblooming tendencies, many new growths being terminated with a large cluster of flowers.

Hiawatha. There is no other rose so brilliant as Hiawatha. Its flowers are about 1½ inches across, and produced in long, pendulous sprays, with frequently from 40 to 50 flowers on a spray. In color it is brilliant, ruby-carmine, with a clear white eye and a mass of golden stamens—a glowing combination of colors. The plant is strong, vigorous growth, with bright green, glossy foliage, which is retained until late in Fall.

Tausendschon. Entirely distinct, not only in Ramblers, but in climbing Roses generally. The individual flowers are very large, being fully 3 inches across and of most elegant and graceful form. In color it is a soft pink when first opening, changing to carmine on the reverse of petals when fully expanded. These are produced in trusses of from 10 to 15 flowers.

BABY RAMBLERS AND POLYANTHA ROSES.

A type of Roses which is very popular for bedding purposes. They form shapely, compact, bushy specimens about 18 inches high, producing in great profusion from early in the season until severe frost, immense trusses of small flowers.

Crimson Baby Rambler. Crimson flowers similar to the popular Climbing Rambler.

Cerise-Pink Baby Rambler. (Mrs. Cutbush.) Identical in color to the beautiful Lady Gay Rambler; always in flower.

Clothilde Soupert. One of the freest flowering Roses, producing in clusters beautiful perfectly double flowers of a French-white, deepening to rosy-blush in the centre; deservedly popular.

Wite Baby Rambler. Pure white flowers, showing the yellow stamens very prettily.

Strong 2 year-old plants, 40 cents each; \$4.00 per dozen.

Memorial or Evergreen Roses.

The type of this group of Roses, *Rosa Wichuraiana*, is of Japanese origin, and flowers during June and July. These roses are of a trailing habit of growth, very hardy, and are recommended for covering graves; hence one of its names, Memorial Rose—climbing over walls, arbors, stumps of trees or for trailing over rocks or rough ground. The foliage is of a beautiful shining green.

Evergreen Gem. Flowers buff, changing to creamy white, very double, foliage dense, of rich bronzy-green.

Gardenia. Buds bright yellow, opening double flowers of a cream color, incurving towards evening to the shape and of the color of a Cape Jessamine; hence its name.

Strong two-year old plants, 30 cents each; \$4.00 per dozen;
\$25.00 per 100.

We issue separate lists of **Diciduous Trees and Shrubs, Evergreens and Perennials.** Free on application.

Note.—Roses to do well must be planted so that bud is 2 inches under soil.

In this list we aim to sacrifice quantity for quality. Every one of these Roses is a favorite with rose lovers.
